Gauri Katti

Frontend Engineer — React.js — JavaScript — TypeScript
gaurikatti2806@gmail.com | +91-8080324256 | LinkedIn | GitHub | Portfolio

Summary

Frontend Engineer with 2+ years of experience building scalable, production-grade web applications using React.js, JavaScript, and TypeScript. Experienced in developing reusable UI components, component architecture, state management, REST API integration, and frontend performance optimization. Hands-on experience with React Hooks, responsive design, debugging production issues, root-cause analysis, and frontend testing using Jest.

Experience

Connecticus Technologies Pvt Ltd (Client: Siemens DISW) Pune, India
Software Development Engineer *Mar 2025 – Present*

- Developed and maintained production-grade React.js modules for Teamcenter Active Workspace using JavaScript, React Hooks, and reusable UI components to deliver responsive frontend features.
- Improved frontend performance by reducing unnecessary REST API calls, preventing redundant React re-renders, and implementing debouncing for user-driven operations.
- Refactored legacy frontend code by removing redundant event publishers and optimizing batch job calls, improving application efficiency, maintainability, and code quality.
- Collaborated with backend team to integrate REST APIs, optimize frontend data flows, troubleshoot integration issues, and deliver end-to-end product features.
- Increased Jest coverage by 27%, resolved production issues through debugging and root-cause analysis, and helped reduce the critical defect backlog to zero.

Connecticus Technologies Pvt Ltd (Client: Siemens DISW) Pune, India
Graduate Trainee Engineer *Aug 2024 – Feb 2025*

- Investigated and resolved frontend issues in Teamcenter Active Workspace, improving exception handling, application reliability, and user-facing functionality.
- Performed debugging and root-cause analysis of production issues and collaborated with cross-functional teams to understand requirements and deliver reliable software fixes.

Connecticus Technologies Pvt Ltd Pune, India
Software Development Engineer Intern *Jan 2024 – Jul 2024*

- Developed React.js frontend features, integrated REST APIs, and contributed to responsive web application workflows.
- Integrated Jira APIs to support automated task-tracking workflows using React.js and Postman.

Technical Skills

Frontend: React.js, JavaScript (ES6+), TypeScript, Next.js, HTML5, CSS3, Tailwind CSS, Material UI, React-Bootstrap
State Management: React Hooks, Context API, Redux Toolkit, Custom Hooks
Performance Optimization: Memoization, Lazy Loading, Code Splitting, Virtualization, UI Rendering Optimization
Backend Integration: REST APIs, Axios
Testing: Jest
Tools: Git, GitHub, Chrome DevTools, React DevTools, NPM, VS Code

Projects

AI-Powered Voice Task Management Platform | React.js, TypeScript, Node.js, Express.js, MongoDB

- Built a responsive task management application with AI-powered voice task creation, Kanban workflows, and reusable React components.
- Designed reusable frontend architecture using React.js and TypeScript, integrating REST APIs for task creation, updates, and workflow management.
- Optimized component structure and frontend workflows to improve maintainability, responsiveness, and user experience.

Achievements

- **AIR 9**, CodeSpire Ideathon organized by Acropolis Institute of Technology and Research.
- **1st Rank**, Smart India Hackathon Internal Round 2022 and TIAA Inter College Hackathon 2023.
- **Vice-Captain**, RNXG Robotics Team; represented the team at DD ROBOCON 2023, scoring 97/100 and 96/100 in competition rounds.

Education

Shri Guru Gobind Singhji Institute of Engineering and Technology Nanded, India
B.Tech in Computer Science and Engineering — CGPA: 8.28/10 *2020 – 2024*
